

# Reception Homework Activities - Spring 1

Make snow animals - which live in a hot country? Which live in a cold country?

Look at holiday photos and talk about them with your family. Could you bring them in and tell us about them too?

Draw pictures of places you feel you 'belong'

**BELONGING**

Compare footprints in the snow. How many steps across your garden? Who has the smallest / largest footprint? How do you know?

Please chose one activity each week, alongside the regular reading homework. Try to read everyday with your child, or at least 3 times a week.

What 3D shapes can you find in your house? Can you make a model / sculpture with them?

Draw and label an animal that lives in a cold / hot country.

Experiment with floating and sinking in your house.

Freeze an object in ice and find the best way to melt it.

Write your full name in as many different places as you can - snow, paint, paint with water, playdough, icing on biscuits, twigs etc
